

## All about Special Educational Needs

Approximately one in five children will have Special Educational Needs (SEN) at some time during their school career.

This means they may have difficulty with:

- Reading, writing, mathematics
- Understanding information
- Expressing themselves
- Organising themselves
- Sensory perception or physical mobility
- Managing their emotions
- Making friends or relating to adults

These difficulties cause barriers to learning. At Smith's Wood we will assess your child to identify their strengths, needs and extra help they require.

They may be at one of two stages on the SEN Code of Practice, according to need:

SEN Support:

extra help in class from a teaching assistant, small group support, ICT access. Advice from outside specialists, e.g. specialist teacher, speech and language therapist, health professional will be sought if appropriate

Education Health and Care Plan:  
when needs are complex

Action relating to SEN support will follow an assess, plan, do and review model.
