## 'SPRING TERM 1 SNAPSHOT'

**Thank you to all pupils, parents and carers for their support during the Spring Term lockdown**

### LOCKDOWN LEARNING AT SMITH'S WOOD PRIMARY

This half term has seen a combination of both in school learning, for some pupils, as well as remote learning for pupils at home. Whether your child is currently attending school, or is learning from home, the lessons which are being delivered each day have ensured that all pupils at Smith's Wood have access to some live interaction with the teachers. The uptake for the live Zoom lessons, from pupils in all year groups, has been fantastic and it has been brilliant to see many of our pupils take up the opportunity of live lessons each day.

For pupils who have needed support in accessing the live lessons, due to a lack of digital technology, the school have supported by providing a laptop for any child who needs it during the period of lockdown. Thank you to parents and carers who have responded to our surveys and phone calls and have informed us of the support required for their child— we hope that you have felt supported by the school when any issues have arisen.

Whether in school, or learning remotely, enjoyment of lessons has not ceased during lockdown at Smith's Wood Primary. Have a look at some of the photos below, which celebrate our learning. There are also additional photos on the school website.
